- Winning combinations for these reels are identical to the base game.
- During free plays, 4 or more consecutive cascades add additional free plays to the amount of free plays remaining.
- The Feature may also trigger randomly at the end of a play that does not trigger the Feature and awards 7 free plays.

## **Cascading Reels**

- During each game, reel symbols fall into position from above.
- After winning combinations are paid, symbols in payable-defined combinations disappear.
- Remaining symbols drop and new ones cascade into play.
- Any new winning combinations formed are paid.
- This process continues until no new payable-defined combinations are formed.

## **PAYLINES**

- Wins on multiple paylines are added together.
- Total line bet must be divided equally between each active payline; therefore, all total bet amounts are not available.
- The total bet is the number of lines multiplied by the cash bet on each line.
- Only active paylines can register wins.
- Malfunction voids all pays and plays.

## **Return to player**

- This game has a theoretical Return to Player (RTP) of 96.00%.
